Experience

<u>Senior Engineer at James McGuinness & Associates - Schenectady, NY</u>   10/18 - Present

Full stack .Net development for Government Solutions division SaaS products

- Utilize ASP.NET and Javascript to add new features used by users across New York State
- Handle multiple data transfers and transforms with SQL, SSIS, SFTP, and RESTful APIs
- Manage production builds, development environments, and optimizing SQL Server databases
- Perform code reviews and mentoring for new team members
- Successfully grew userbase and client billing to 100 million dollars per year

Lead Developer on Erie County Secure Document Sharing Application

- Collaborated with management to gather requirements, define scope, and manage expectations
- Leveraged ASP.NET Core Blazor, Dapper, and SQL Server to achieve project goals
- Implemented robust logging with the ELK (ElasticSearch, Logstash, Kibana) stack
- Designed with Material Design principles to keep the UI responsive, consistent, and attractive

<u>Junior Developer at James McGuinness & Associates - Schenectady, NY</u>   6/14 - 10/18

Commercial Applications division consultant for Counties, Schools, and Therapy agencies

- Worked with clients to determine business needs and software requirements
- Developed and tested features for multiple ASP.Net Web Forms and MVC websites
- Administered and performance tuned SQL Server databases
- Utilized C# to create and parse/process Medicaid files in the X12 format

Side Projects

<u>VMWare vSphere Server on Dell Poweredge R730</u>   1/22 - Present

- Built a rackmount server with UPS, hardware firewall, and RAID storage array with the goals of enhancing skills in server management, networking, security, and linux environments
- Created and managed VMs to run web servers, game servers, databases, and Docker containers
- Utilized infrastructure to host my personal website (swedick.io), GitLab instance, and Jenkins CI/CD server

Microsoft Certified Professional Certifications

- Microsoft Certified: Azure Developer Associate AZ-204   12/2021
- Microsoft Certified: Azure Data Fundamentals DP-900   10/2021
- Microsoft Certified Solutions Developer: App Builder   12/2018
